

Submitter:

Steven Isaacson

On Behalf Of:

Committee:

House Committee On Behavioral Health

Measure, Appointment or Topic:

HB4115

Dear members of the House Committee on Behavior Health:

Oregon's behavioral health system is at a breaking point. We have the funding. We have the need. What we don't have is a workforce that can get into the field fast enough. HB4115 doesn't cut corners-it cuts red tape. It's a sensible targeted way to make sure qualified professionals don't spend several months waiting in limbo before helping people who desperately need care.

Please support HB 4115.
