

Submitter: Russell Giovenco  
On Behalf Of:  
Committee: Senate Committee On Finance and Revenue  
Measure, Appointment or Topic: SB1507

My name is Russell Giovenco, and I am a parent. Essential state and federal services that millions of Oregonians rely on are at risk of severe funding cuts due to H.R. 1 and the Trump Administration's agenda. While Oregon faces the loss of billions in federal funds, the wealthiest earners and out-of-state corporations stand to gain massive tax breaks. This is unacceptable for our state and its people.

If we do not decouple from these federal tax codes, Oregon will be forced to make devastating cuts to essential services that millions rely on. Without action, the impacts will be severe: Employment-Related Day Care will run out of money by January 2027 unless the current legislature fills its \$88 million shortfall; food banks will be overwhelmed as federal SNAP funds are withdrawn, leaving critical gaps in food security; hundreds of thousands of Oregonians stand to lose health care coverage due to the largest funding cut in Medicaid/Oregon Health Plan history. These are just a few examples of what's at risk if we remain bound to a federal system that prioritizes tax breaks for the wealthy over the well-being of our communities.

I support the state disconnecting from the federal tax codes because I was blessed to have my mom watch my kids when they were young. If it wasn't for that, there would have been no way we would have been able to afford child care. The cost of childcare would have been the same as what one of us was making. If we had access to a child care subsidy, to would have allowed both of us to work. I want legislators to know that child care subsidies are important and families can't survive off of one income. This is why people want to stop having kids - because we have no help.

It's pouring in Oregon. I urge you not to bend the knee to the Trump Administration and disconnect from the federal tax codes so that Oregonians don't lose the essential services we heavily rely on.

Thank you,  
Russell Giovenco
