Measure, Appointment or Topic: HB4153

I support small farms and their ability to have farmstands. This measure would stop some of my favorite local farmers, who are also my neighbors, from selling their produce in a local, sustainable way. I love that I can go to the farm and see where my food is grown and buy it right there. I also like that my money is staying in Oregon, right in my community. These small farms are one of the many things that make Oregon so special. Let them have their stands.
