House Committee On Revenue

Measure, Appointment or Topic:

HB4134

Friends,

I support HB 4134, the 1.25% for Wildlife bill.

Oregon is famous for our wildlife, which supports our tourism and related businesses, brings joy and has inherent value in a world rapidly losing biodiversity. A stewardship program funded by tourists, many of whom come here to experience our beautiful lands and diversity of wildlife, makes perfect sense. With a federal government that feels no connection to the outdoors and web of life, it is inherent upon us to assure that habitat and species are protected. Please support HB4134. Thank you.
