

Submitter: B Tobias
On Behalf Of: DUPLICATE OF BILL PASSED 6 MO AGO
Committee: House Committee On Revenue
Measure, Appointment or Topic: HB4134

Since the 2025 regular session has already passed basically the same tax about 6 months ago, and the Dept of Revenue is keep 2% of that for "administration costs related to tax collection" (which amounts to over \$600,000), I disagree with doubling down and taxing hotels again, and asking for additional 2% admin fee ! Staying in hotels in Washington is so much cheaper than in Oregon already, without this additional tax.

I understand that Kotek is panicking because her choices (and those of the left in government) has brought the \$900 Million financial cliff very near. IF she would just use common sense, and stop the sanctuary status agenda and continuing to pay millions of taxpayers monies to those who have not contributed one dollar to our state, via health care, dental care, day care, housing and so much more, then this financial disaster she concocted would go away. You can call the sky green all you want, but it still remains blue. Facts are impossible to change!

I see great days ahead for Oregonians as soon as we clear away so much dirt that has been deposited.
