Committee: Senate Committee On Judiciary

Measure, Appointment or Topic: SB1563

I support this measure.

Our constitution should not be easily changed to the detriment of civil rights or freedoms - many of which have been squashed.

When this occurs and an individual suffers harm, they need to have the constitutional right to remedy - this doesn't change the constitution, it upholds it, and the fact that we have to have this discussion is disconcerting. I only wish it was retroactive for those who lost jobs or businesses because of unconsitutional opinions or actions
