Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB4114

To the Committee,

I am writing to express to my support for HB 4114. Affirming our Constitutional rights and ensuring that Oregonians can be secure in their Constitutional rights and hold those who would violate them accountable would be wise during a normal time, and essential in the environment we're currently in. This is especially true for those immigrant, minority, and trans individuals being expressly targeted by the Trump administration for harm and intimidation.

Regards,

Wyn Manselle
