

Submitter:	M Parker
On Behalf Of:	
Committee:	Senate Committee On Natural Resources and Wildfire
Measure, Appointment or Topic:	SB1541

This is a thinly veiled carbon tax.

It will raise energy and fuel costs across Oregon and the end user - Oregonians - will ultimately bear the brunt of this tax. Fossil fuel companies will pass on this (undefined) price hike on to customers, fuels and energy prices will rise. This will affect every facet of our economy; from transportation, to food production, to heating, and so on.

Once again, this legislature actively ignores the full ramifications of these bills. There is no fiscal impact study, no revenue study, the "cost of climate change" is a legally vague term, and the "cost recovery demand" amount is completely unspecified in this bill.

Oregonians are already struggling, please stop piling on.
