HB4153

I am writing to suggest that the bill as written is not perfect and needs better carve outs for smaller farms. It is a step in the right direction. There should not be a revenue test for this farm store bill for small farms. It seems like there needs to be some guard rails on the circus that could ensue with events on EFU land but in general, I appreciate expanding the offerings that a farm store can offer, including prepared foods and having farm to table dinners. What happens to existing farm stand permits? Do we need to go through a new burdensome permitting process?
