Hello,  
I am writing on behalf of funding to protect Oregon Wildlife. I am in support of HB 4134 that would increase the state transit lodging tax. Oregon is a destination for many from all over the country to all over the world. Other counties and states have such as Humboldt County have increased transient lodging tax with success. I do not believe that it will stop people from coming to our beautiful state. What it will do is keep our wildlife and natural resources healthy for years to come!

Thank you,
