

Submitter: Helena Birecki  
On Behalf Of:  
Committee: Senate Committee On Judiciary  
Measure, Appointment or Topic: SB1594

Dear Senate Committee on Judiciary,

I appreciate the intent of this bill. At the same time, the scope and scale of the current federal administration's attacks on our communities may require more immediate and more independent response.

My paternal grandparents escaped the Holocaust. The federal government/ICE/CBP is employing tactics extremely similar to the Nazis. I don't think that policies "consistent with federal law" be up to the task of keeping Oregonians safe even by the time they are formalized.

I hope you can strengthen this bill and that good measures can go into effect more immediately.

Every person on this planet is deserving of decent treatment and human rights.  
Thank you for striving for more of that.

Sincerely,  
Helena Birecki
