So many lives would be affected to the shutdown or limitations of this house bill. These farm families already struggle with so many issues that control their bottom line income. If you don't allow them to use an agriculture product to draw visitors to touch and feel, you lose the sense of understanding. Eggs, milk, flowers, pumpkins Christmas trees, fruit DONT grow on the self in the back room of a grocery store. Memories are made when a family spends a day or a few hours on these farms. Don't kill more livelihood in Oregon please. Please don't be the person that kills a third or fourth generation family that has been developed over 75-100 years. Think about the full economic impact if families can't go the country. People stop stopping at a restaurants, buying extra gas, buying different clothing to ensure comfort. The list goes on and on as to why this is a bad idea to limit farms to have visitors.
