The people of Oregon spoke loudly when the legislature attempted to install a massive tax burden on the citizens. We are exhausted with Salem's inability to clean house and right size the government that has bloated so far out of control it is unrecognizable. NO MORE TAX SCHEMES should be discussed until a faithful effort has been made to do two things:

1. Oregon is successful at bringing industries here rather than chasing them away
2. The state government bloat has been purged (DEI, Crony positions,
3. Remove the CAT tax - which is a defacto sales tax - having a gross receipts tax is punitive to growing a business, and growing a business is how we hire employees, and those employees pay income tax.. FOCUS on helping business by removing obstacles - not by creating them.

Please vote No so you can spend your time on stopping the death by a thousand state governmental cuts businesses are experiencing in Oregon
