Oregon must pass HB4114, putting it into immediate effect to protect citizens and non-citizens alike from the fascist and gestapo tactics being employed by ICE and CBP federal agents. Trump is using ICE and CBP as his own secret national police to deny due process to persons and to spread terror across this land. HB4114 is one way that states can fight back against his anti-constitutional rule.

If states do nothing, the terror will only worsen and the rule of law weaken. And Trump has three years left to serve! Take note of how much suffering and chaos he and his MAGA advisors like Stephen Miller have already caused in only 12 months.

Act now to pass HB4114.
