

Submitter: Andrew Simrin  
On Behalf Of:  
Committee: Senate Committee On Natural Resources and  
Wildfire  
Measure, Appointment or SB1541  
Topic:

Dear Chair Golden, Vice-chair Nash, and Members of the Committee,

When you make a mess, you should clean it up. That's why I support the creation of the Climate Resilience Superfund, to hold polluters accountable by making the large, out-of-state fossil fuel companies pay their fair share.

My household has had to cope with the effects of climate pollution, and it can be very expensive and involves a great deal of efforts.

From wildfires to polluted water, we've seen communities across the state bear the brunt of our climate crisis. For too long, the cost of cleaning up the impacts of climate change has been the responsibility of us Oregonians and our local governments. We've been footing the bill while fossil fuel companies rake in the profits. That must end.

As legislators, you have the power to shift the costs from your constituents to these mega corporations. I urge you to pass SB 1541 and finally make these polluters pay for the damage they've done to communities across our state.

Thank you.
