HB4114

Dear Oregon Legislators: I urge you to support HB 4114. Like millions of fellow Americans, I am distressed and horrified by the nazi-esque brutality, arrests, and murder that ICE is thrusting upon our people, immigrants and citizens alike. Here at home, I worry about friends, neighbors, family, myself. History teaches that when some of us are unsafe in these political circumstances, all of us are unsafe. I believe our democracy can only be saved through many actions taken by many people. Supporting HB 4114 is an action YOU can take in helping the cause of American freedom. Thank you.
