HB4114

I am Patrice Pollard and I support HB 4114. My husband is a naturalized citizen; his skin tones are darker than mine and he speaks with an accent that I do not hear anymore. I am afraid for him and others who could be profiled by federal agents. I do not sleep very well because this a very real threat that feels like a nightmare, and I cannot wake up from this nightmare. It is ongoing, every single day. It is very painful to learn that the country he chose to be a citizen of, thinks so very little of him and so many others. My husband is the love of my life, and I want to grow older with him. I do not want to lose him to violence.

Thank you for listening.

Sincerely,

Patrice Pollard
