Measure, Appointment or
Topic:

HB4153

I support HB 1453, I value local farms, agritourism, and the opportunity they provide for everyone. Ez orchards farmers market for example, I've been going to every year since my childhood. I go every year for my sister in laws birthday to buy her something from the market made by local farmers and a short cake at their stand, I go on my birthday for the same reason and I go again before they close the stand. Then I go for apple cider and donuts when they first open that for the season and following again for when my family goes for our fall family pictures at their pumpkin patch and lastly I go again when they have their last batch of cider and donuts. And not to mention the farms I go for apple picking to be able to bake and feed my family apple cider apple sauce apple pies apples in general around the holidays for an affordable option. Or the other pumpkin patches I go for the experience. Local farms give so much opportunity for the people especially kids it helps to make up their childhood don't take that away.
