Oregon is still blessed with wildlife and an ecosystem that attracts tourists from all over the world. It also attracts residents such as myself who only moved here 2 years ago. As the population continues to grow and natural landscapes are lost to industrial agriculture and other industries it is fair to tax those who benefit from the Oregon landscape to pay a bit more for their stay. This legislation will help maintain what we all treasure about Oregon.

Thanks for giving me the opportunity to comment on this important issue.
