Measure, Appointment or Topic: HB4138

This is a critical first step in holding persons who enter our communities heavily armored and armed accountable. That they are not already subject to being identified by name and organization is a travesty that must be corrected. A secret police force helps only those who wish to oppress us all.

Masks must be forbidden with specific exceptions that have understandable reasons.

Body cameras must be worn with the feed going directly some place other than or at least in addition to DHS. We cannot trust that this administration will provide the actual feed from the cameras, so we need oversight.

Thank you to my reps and all of you who are supporting this.
