

Submitter:

Renee Echevarria

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4114

It is unfathomable that any agent of any state or federal government should feel they can violate our rights specifically as outlined in the 4th amendment. We should know who is attempting to break down our doors and cause chaos in our communities, and have an opportunity to hold accountable those who do.

I fiercely support any bill that helps to preserve our constitutional and states rights.
