Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4114

I fear for the safety of my household and this is essential to get passed and enforced. While being a natural born US citizen I has Asian heritage and possess familial Asian names. My full legal name is attached to my address and exemplifies my race and that does frighten me. I now carry my passport on me at all times out of fear. We need to protect everyone from the threat that is ICE, especially those who are likely to be targeted and those in our community.
