Hello legislators,

I'd like you to reflect on this question to begin. What are you trying to solve with this bill HB4153?

This bill places new requirements on the smallest of businesses. To what end? Have we even observed a problem we're trying to solve?

At face value this bill seeks to further eliminate the possibility of small farms and continue to erode our rural communities into larger and larger farms. What value does this provide to our community?

I believe even the smallest of farm stands have a right to operate a non-intrusive business as long as health and safety are kept in-check, which seems to be a self-regulating problem that is working just fine at the moment.

Please consider opposing this bill on behalf of the smallest of our community farms and myself, a patron of these lovely Oregonians.

Thanks for your time,
Tyler
