

Submitter: tracy Bingham

On Behalf Of:

Committee: Senate Committee On Early Childhood and  
Behavioral Health

Measure, Appointment or SB1573  
Topic:

Please pass this legislature to protect our children. Currently, our school community is inundated with people openly using drugs and the effects of drug use. This should not be something children become acclimated to. Our city and state needs to prohibit syringe services and open drug use in school zones. Thank you.
