Being a small property owner/manager in the Portland core, we support SB 1523. I'm baffled by the opposition to this bill. We stand with people over money. If it takes an extra few minutes to process an application or take a check to the bank, so be it. If someone doesn't have access to a computer, should they be denied access to apply? NO. For a larger firm would this be a bigger administrative burden? Probably. Should that hinder someone's access to housing? Absolutely not. To me this is not even a question. People first. Housing first. Helping each other.
