Measure, Appointment or Topic: HB4153

I strongly support the passage of HB4153 that codifies and provides much needed support for small farms within Oregon. Small farms provide some of the healthiest and most nutrient-dense produce, keeping heritage varieties alive, and stewarding the land local environment in critical ways. Often, they are only able to do this important work by subsidizing with events and activities on their farms, which in itself is a boon to small towns, local economies, and the overall tourist draw for our beautiful state. It is important to protect and nourish these small farms to see them forward well into the future!

Please support HB4153 for the benefit of all Oregonians and those visiting our state.
