Senate Committee On Judiciary

Measure, Appointment or Topic:

SB1594

Perhaps the "leadership of Oregon" should worry about the about the money that is shifted around and not spent on "housing initiatives" for homeless issues. An amazing amount of \$41 million dollars has magically been located.

How about spending (and using the same effort fighting Federal Officials on Immigration issues) some money on some of your rural roads? Oregonians are moving to rural areas due to high house prices.

Why is enforcing the laws such a problem? Selective law enforcement benefits only those that get to choose which laws are valid and which are not. Everyone else suffers. This bill should not even get a vote. It is the job of the Federal Government to enforce U.S. Immigration Law. Please

check under 8 and 18 USC codes for further Federal Laws.

Stay in your lane Oregon and represent the voice of the citizens in Oregon.
