Measure, Appointment or
Topic:

HB4080

Honorable Chair Lively and Members of the House Committee on Climate, Energy, and Environment,

Thank you for the opportunity to testify on HB 4080. This bill allows access to renewable energy for people who have otherwise been priced out of the market. It removes barriers for renters and homeowners who cannot install traditional rooftop solar, helping Oregon meet its clean energy goals.

The bill prevents utilities and HOAs from imposing unnecessary fees or unreasonable restrictions on small-scale solar use.

Please pass HB 4080.

Thank you,

Alida Rol
