

Submitter: Dan McFarling
On Behalf Of: self
Committee: House Committee On Transportation
Measure, Appointment or Topic: HB4008

Please advance HB 2008, creating a Transit Funding Task Force, with a "Do Pass" recommendation.

Public transportation provides a Safe, Economical, Environmental and Equitable alternative, especially the 30% of the population who lack access to or the ability to drive.

Public transportation provides an alternative to those who prefer to not drive, especially for those who should not be driving.

Public transportation reduces traffic congestion, improves traffic flow and safety for those who MUST drive and for those who choose to drive.

Public transportation provides a safer, healthier environment for everyone, including pedestrians and bicyclists.

Public transportation provides family-wage jobs.

Public transportation is important to people who have difficulty getting to and from places of employment, creating a stronger economy.

Public transportation is essential for some to access health care and social interaction.
