House Committee On Judiciary

Measure, Appointment or Topic:

HB4138

I oppose the advancement of HB 4138. State legislators have absolutely no legal authority to regulate policies, practices, uniform standards, nor the tactical or safety garments of out-of-state or fed'l law enforcement agencies when engaged in lawfully prescribed duties & enforcement actions. Legislators supportive of this bill are living in a fantasy universe, one which ignores jurisdictional limits, supremacy authority of the fed'l gov't & its agencies, and plain common sense. Recent California legislation notwithstanding, attempts to overstep local & state authority into fed'l jurisdiction will simply prove to be a waste of time & expense, something Oregon & its legislators cannot be so frivolous with. Kill this bill.
