Measure, Appointment or Topic: SB1550

I oppose advancement of SB 1550. Based on my extensive knowledge of law enforcement & homicide/suicide best practices, all of the actions req'd within this bill already take place. I have yet to see any empirical evidence of any case in Oregon where such investigative practices & techniques were not exercised as a matter of routine. I suspect one or more supporting legislators, or a close relative or family friend thereof, is championing this seemingly needless effort as a cathartic experience rather than out of actual necessity. Do not advance this bill without much more specific information & evidence as to actual need.
