House Committee On Climate, Energy, and Environment

Measure, Appointment or

HB4080

Topic:

Honorable Chair Lively and Members of the House Committee on Climate, Energy, and Environment.

Thank you for the opportunity to testify on HB 4080. I am writing in support of a commonsense step to greater use of renewable energy. The provisions remove barriers for renters and homeowners who cannot install traditional rooftop solar, including restrictions by landlords and HOA's. Because of lower upfront costs, the bill puts solar energy within reach for more Oregonians.

I think reducing code and other barriers to balcony solar installation is a smart move for our state. Please pass HB 4080.
