

Submitter: Amy Brewster  
On Behalf Of:  
Committee: House Committee On Revenue  
Measure, Appointment or Topic: HB4134

Hi there,

My name is Amy Brewster, I am a long time resident of Bend, OR, and I'm writing today to share my support for HB4134.

I moved to Bend in 2005 for its proximity to the outdoors, natural resources and diverse ecosystems right at our doorstep. Living here for over 20 years has only deepened my love for our natural landscapes and the plants and animals that call our high desert home. At the same time, our native plants and animals are facing more pressure than ever on their fragile habitats.

HB 4134 is a vital revenue stream to help support the species that make our state vibrant and special. Oregon has a deep history of conservation values, and voting yes on HB 4134 is a natural extension of those values.

With over 100 animals in the High Desert listed as species of concern by USFW, it's imperative that we act now to preserve the landscapes these non human neighbors need to survive!

Respectfully,

Amy Brewster
