

Submitter:

Dan Morgan

On Behalf Of:

Committee:

House Committee On Revenue

Measure, Appointment or Topic:

HB4134

Chair Nathanson and members of the House Committee on Revenue

My name is Dan Morgan and I live in Eugene, Oregon. I am submitting this testimony in strong support of HB 4134. As an Oregonian, I want to see our extraordinary landscapes, species, and the communities that rely on them thrive for generations to come. People from around the world come to our state to experience this stunning natural beauty, but our natural resources need adequate funding to be able to flourish, particularly as the impacts of climate change continue to unfold.

With Oregon's State Wildlife Action Plan, we already have the strategies we need to restore struggling wildlife populations and build ecological resiliency. By passing HB 4134, ODFW will be able to take real action towards these recovery plans. Not only that, but the benefits generated by this innovative solution will stretch from supporting wildlife coexistence and wildfire management plans to boosting our outdoor recreation and tourism sectors.

I urge you to pass this vital bill, it is a chance for Oregon to step up as a leader in long-term economic success and environmental protection. Please show your support for Oregon's natural legacy and pass HB 4134 – 1 this legislative session.
