House Committee On Judiciary

Measure, Appointment or Topic:

HB4114

Oregon must strengthen its laws to protect its citizens from the federal government. The office of the presidency has been compromised by an organization of criminals and tyrants. Everyone deserves to feel safe in our own homes, but as long as we sit back and do nothing, everyone is forfeit to ICE, or any federal agency, to break down your door; it doesn't matter your race or national identity. HB 4114 at least gives the Oregon people some sense of security in knowing that they won't be fitting the bill for the federal governments illegal activity of terror.
