

Submitter: irene gilbert

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB1526

This bill places the Oregon Department of Energy in a position of competing with existing non-profits for money that is intended to go to specific developments. It is an attempt to supplant the already generous subsidies and tax credits supported by Oregon taxpayers. If a developer lacks the funding to complete the work necessary to start a project, it can be assumed that they lack the financial backing to complete the project.
