

Submitter:

Rachel Ishofsky

On Behalf Of:

Committee:

House Committee On Judiciary

Measure, Appointment or Topic:

HB4138

While ultimately what we need is ICE defunded and out of our city, at the very least we need to enact these and other common sense laws. There is no world where our community members should be approached or detained by masked officials who cannot be easily identified by their uniforms. Thank you for your support and hard work on this legislation!
