Dear House Committee on Agriculture, Land Use, Natural Resources, and Water:

HB 4105 is an arbitrary, capricious, and out-and-out unreasonable delegation of legislative authority to a so-called "State Forester" that has no constitutional authority to decide if our native and naturalized trees and / or any kind of natural resource management should occur at all for that matter.

This is a clearly unconstitutional bill and as such should not be moved forward by your committee in the legislative process; in fact, the bill should be resoundingly denounced.

Furthermore, if you did not already know it, evil extraterrestrials are raping and pillaging our environment behind the scenes, and this bill amounts to legislative fraud allowing these cretins to continue their genocide of the native and naturalized inhabitants of Mama Maya.

Please vote no if you don't want to go down with the evil hoes!

Sincerely,
April Boutillette Brinkman
