

Submitter: Matt Kelly  
On Behalf Of:  
Committee: House Committee On Climate, Energy, and Environment  
Measure, Appointment or HB4080  
Topic:

This is an excellent bill deserving support. Owners and tenants should have a right to self-install safe, low-power solar energy systems with a proven track record of working well in other places. Please do not clutter up this bill with layers of regulatory oversight, permission, fees, or requirements that will unnecessarily put up obstacles to people opting in to solar energy freedom.
