Measure, Appointment or Topic:

HB4107

Dear Members of the House Committee on Healthcare,

I am writing to express my strong support for HB 4107. In recent years, the number of urgent care

centers has exploded across Oregon. While they provide an important bridge between emergency

rooms and traditional clinics, they currently operate without consistent oversight or accountability. This

lack of transparency leaves too many patients unsure of who is treating them or whether they are

receiving appropriate care.

HB 4107 is a vital step forward. It doesn't restrict access; it simply ensures that all urgent care centers

meet a minimum, common-sense standard of safety and professionalism. Please support this critical

legislation and protect the patients who rely on these services.
