

Submitter: Tiffany Chapman

On Behalf Of:

Committee: House Committee On Judiciary

Measure, Appointment or Topic: HB4114

Dear House Committee on Judiciary,

My name is Tiffany Chapman and I live in Milwaukie, Oregon.

I am writing testimony in support of this bill because I have had scary encounters on my apartment's private property with suspected federal agents/ bounty hunters three times since the end of December. It has aggravated my health conditions to the point where I can barely function, and I have citizenship privilege. I can't imagine how I'd be doing if I didn't. My neighbors and I deserve due process and for federal agents to follow the law. Please stop federal agents from entering private property in Oregon. And if they do, please require a judicial warrant for all federal agents to enter private property in Oregon, and allow people to sue federal agencies if they don't.

Thank-you,

TLC
