

Submitter:

Marjorie DeBuse

On Behalf Of:

Committee:

House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic:

HB4080

Dear committee members,

I am a person who is always looking for ways to reduce my footprint on the planet. HB4080, the so called “Balcony Solar Panel bill” is one idea that strikes me as practical, cost saving, and good for the environment. Small panels can provide needed electricity for a residence without the heavy investment of rooftop solar systems. I urge you to approve this bill and send it forward for passage by the whole legislature. Thank you.

Best Regards,

Marjorie DeBusep
