

Members of the Senate Judiciary Committee,

As one of the many people who are deeply concerned about the dangerous overreach by federal agents and others in carrying out the Trump administration's immigration policies, I urge you to vote in favor of SB 1594 for the following reasons:

- The bill ensures consistency and clarity in handling sensitive immigration-related information.
- The policies will be designed to align with existing state and federal laws, reducing the risk of legal conflicts and ensuring proper adherence to regulations.
- Procedures will cover public body personnel when federal immigration authorities or agents arrive at or enter public facilities.
- Procedures will cover privacy protection, verification procedures, escalation procedures, and documentation.

It is imperative to challenge and correct anti-democratic policies and actions by the Trump administration.

Please vote in favor of SB 1594.

Sincerely,

Roscoe Caron  
Eugene
