I cannot understand the choices you want to destroy our agriculture and farms. It makes me feel none of you have the knowledge to understand how hard farmers of any kind work to feed all of the people in the United States. Without farmers being able to support their farms it will end with nonexistent farms just sitting there empty. We need a way to let the farmers and those who support them continue to sell their products in farm stands. This is an essential their income and to continue support for our farmers. I oppose to stop farm stands and continue to support our agriculture for the future to come. This seems like an issue that is unnecessary when we have much bigger issues to decide on. I OPPOSE!
