

Members of the House Committee on Education,

Please vote for HB 4079. I am a retired middle school teacher and I urge you to do all in your power to protect our state's vulnerable students at this time of great stress and fear for many of them.

As a former teacher, I know that ensuring adequate training and support for teachers in navigating this historic moment of uncertainty is essential for the best outcomes for our students.

It can only be a source of comfort for students and parents to know that their schools and staffs are professionally prepared to do what needs to be done for students of all ages.

This dangerous moment demands that we rise to meet it with compassion and skill.

Please vote for HB 4079.

Sincerely,

Roscoe Caron
