

Submitter: P Quillian
On Behalf Of: self and loved ones and friends and everyone
Committee: House Committee On Judiciary
Measure, Appointment or Topic: HB4138

Respect and Defend our Constitution and Bill of Rights! This includes the right to peacefully protest and not be labeled a domestic terrorist. The right to see the face of those claiming to be a variety of law enforcement. The right for the enforcement officer to have a legal warrant and the arrestee to be treated with respect (innocent until proven guilty) and to obtain counsel. What is currently going on with the Ice Force is criminal which makes sense since the agents have more arrest convictions than those they are arresting. This affects all policing and a respect for the rule of law. Or letting the fox guard the hen house. We need to remember that We are all Americans or Humans and that governments role is to bring us together, improve our lives, and respect the law.
