

Submitter: Tony Roit  
On Behalf Of:  
Committee: Senate Committee On Commerce and General Government  
Measure, Appointment or SB1593  
Topic:

I am writing you to express concerns regarding the state of liability relating to outdoor recreation in our beautiful state. I am a lifetime outdoors enthusiast and love spending time in the mountains. My family and community make our living off of outdoor recreation in our state. My daughter and I both work for a local resort and we are constantly worried about our future with only one insurance provider left in the state due to case law that does not fall within the norm of any other western state. Furthermore, there is no "competition" for liability insurance pricing. This has led to rising consumer pricing that excludes a large percentage of our populous. If I didn't work on the mountain, I would not be able to afford the daily pricing. I love snow sports and enjoy spreading that love to others. Many are no longer able to afford it.

Because of this I am in support SB1593 which will help correct this issue in our state.
