

Members of the House Committee on Housing and Homelessness,

Please support HB 4123. At this moment of tremendous uncertain and fear, members of Oregon's immigrant community do not need the additional threats due to landlord disclosure of private information.

All tenants deserve the right to privacy. Immigrants, who are the most vulnerable of tenants at this time, are especially in need to protection against information disclosures that can change the course of their lives.

Please vote for HB 4123.

Sincerely,

Roscoe Caron
Eugene
