I oppose this measure.

This would close existing farm stands who are following the law right but are too small to meet the measure's requirements.

This bill replaces all current language around farm stands implying that folks with a stand at the end of their driveway with garden overflow (zucchini in august, a couple pints of berries, or a sign saying eggs \$6!) would be outlawed by this approach.

Why would ANYONE consider destroying small farms and allow the corporate farms to take control of the market?
