

Submitter: Susan Blettel

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB1505

Dear Chairman Jama and committee members,

After attending the SB 1505 hearing on Wednesday morning, February 4, I am writing to strongly oppose SB1505. In particular, it appears that this is an unneeded board that, at the additional expense of taxpayers and the DSP community, creates a layer of bureaucracy that will drain funding away from an already under funded community of service providers

The authority to determine workforce standards for this community should be done by you, our elected representatives, using information you have already gathered and not by an unelected board endowed with sweeping authority.

Thank you for your consideration  
Susan Blettel
